Trees For the World

The Trees of the World – One Scout, One Tree” Messengers of Peace program was developed and initiated by Scouts from nine countries that participated in the first Inter-American Leadership Training held in December of 2013. The first world –wide project was held April 27th, 2014 and the second last month on September 27th. It's a simple way to care for the environment – encourage every Scout to plant a tree.

The hope is that that next year more Scouts will participate in similar events.

Association of Scouts of Azerbaijan

Azerbaijan has been selected to host the next World Scout Conference and Youth Forum in 2017.

The association was founded in 1997 and became the 150th member of WOSM in 2000. They have a membership of about 1,700.
